TOWN WARRANT.

THE STATE OF NEW HAMPSHIRE.

[L. S.]

*To the Inhabitants of the Town of Bow, in the County of
Merrimack in said State, qualified to vote in Town Affairs:*

You are hereby notified to meet at the town hall in said Bow on Tuesday, the 9th day of March next, at nine of the clock in the forenoon, to act upon the following subjects:

1. To choose all necessary town officers for the year ensuing.
2. To raise such sums of money as may be necessary to defray town charges for the ensuing year, and make appropriation for the same.
3. To see what sum of money the town will raise for the repair of highways in addition to the amount required by law.
4. To see if the town will accept state aid on highways.
5. To see what sum the town will raise for Old Home Day.
6. To see if the town will vote to raise the sum of \$108 for electric lights at Bow Mills.
7. To see what sum of money the town will raise to repair the highway from Burt Brown's to the Heath Mill.
8. To transact any other business that may legally come before said meeting.

Town Warrant—Continued.

Given under our hands and seal, this 18th day of February, in the year of our Lord nineteen hundred and twenty.

ARTHUR M. CASE,
CHARLES S. GOODRICH,
MARK E. WARRINER,

Selectmen of Bow.

A true copy of warrant—attest:

ARTHUR M. CASE,
CHARLES S. GOODRICH,
MARK E. WARRINER,

Selectmen of Bow.

NEW CONSTRUCTION AND IMPROVEMENTS.

HIGHWAY AND BRIDGES—STATE AID CONSTRUCTION.

The town, with the aid of the state, built 8,183 feet of new road and rebuilt 6,178 feet of old, a total of 14,361 feet. This construction makes a continuous state-aid road from the Concord line on South Street to the turnpike at Bow Centre.

Mr. Mark E. Warriner, selectman, was superintendent and paymaster.

Mr. Sam Ferguson of Bristol was foreman.

SCHOOL REPORT.

To the Citizens of the Town of Bow:

Five schools were maintained during the period of the school year and the work in most cases has been satisfactory.

Transportation from one school to another will more and more demand the attention of school boards in the future which will be an increasing expense.

There are eighty schools closed for the lack of teachers in the state and we consider ourselves fortunate to have only one school closed on that account.

"Good schools are the rule." We may realize betterment of our public schools only by the sympathetic co-operation of all connected with the school work and prepare to meet the State Board in all sensible and practical ways or emergencies.

ANNIE W. STEVENS,
Chairman, Bow School Board.

February 3, 1920.

REPORT OF THE SUPERINTENDENT OF SCHOOLS.

To the School Board and Citizens:

I call your attention to certain provisions of the new school law which it is your privilege and duty to perform:

REGULATIONS FOR TEMPORARY APPROVAL OF
SCHOOLHOUSES.

For the School Year 1919-20 Only.

1. Lighting should be principally from the pupils' left and rear and no windows shall be permitted in the front of any schoolroom. The ratio of window area to floor area shall be not less than one to five. Ceilings shall be white or light cream color, and curtains of a light tint shall be provided wherever needed.

2. Equipment for heating must be adequate to furnish a minimum temperature of 68 degrees, and some provision must be made for ventilation without direct draft on the pupils.

3. Floors must be in good condition and oiled or swept with some dust-laying compound. Walls must be in good repair and painted some light color. Papered walls have only temporary approval.

4. Toilets must be in decent and in sanitary condition. They must be located in buildings free from obscene markings and furnishing proper privacy. The vaults must be fly-proof and properly ventilated. The seats should be provided with covers and in the boys' toilets a double seat or urinal should be provided. Single toilets for both sexes will not be approved except for small schools and then only if the entrance is from the schoolroom only.

5. Water for drinking must be provided in properly covered receptacle with faucet or bubbler. Facilities for washing the hands must also be provided. Common towels or drinking cups are prohibited by regulations of the State Board of Health.

6. Every schoolhouse must be provided, as required by law, with a flag and the proper means for displaying it.

7. This list of minimum requirements for temporary approval is intended to cover only such changes as are required to make schoolhouses decent and safe for children, and in many cases will be less than has been already done. Full regulations for the permanent approval of schoolhouses will be prepared and placed in the hands of school boards before the budgets for the next school year are made up. These regulations will require the adoption of a progressive plan of schoolhouse betterment.

8. It is the duty of all school boards to see that all schoolhouses are properly cleaned and that they are kept in clean and sanitary condition by suitable janitor service. Vaults should be cleaned at least twice each year and some effective deodorant provided for constant use. Proper care of school buildings is as essential to their approval as their construction.

REGULATIONS OF HEALTH AND PHYSICAL WELFARE.

For the Year 1919-20 Only.

All which have adopted medical inspection in accordance with the Laws of 1913, Chapter 83, shall comply with the provisions of the law.

In all other districts there shall be employed, as the school board may direct, a school physician, or a school nurse or school nurses, who shall make not less than one annual examination of pupils, note and record their physical condition, together with diseases and defects, including dental defects, notify teachers and parents and, with the aid of teachers and superintendents, labor to secure remedial treatment when necessary, provided, however, in districts where the school physician and nurses are under the local board of health, such control shall be exercised by said board. All tests shall be made as the law provides and all reports made upon prescribed forms.

SCHOOL ATTENDANCE.

Unless excused for physical or mental reasons, any child of school age must attend a public or an approved private school all the time such school is in session.

It is the particular duty of the truant officer to see that this law is enforced.

I know of no other law so frequently violated by otherwise law-abiding citizens as is the School Attendance Law.

Detaining pupils at home for work, for the purpose of purchasing clothing for them or allowing them to attend moving picture shows in the afternoon or visiting friends, are the excuses usually received by the teachers for absences.

It is quite evident that the parent or custodian does not realize that he is not only breaking a useful law but is making a truant of the pupil.

The effect of non-attendance at school is most pernicious both to pupil and school. A day out of school is a day lost in the pupil's school life. A large percentage of retardation or lack of promotion is caused by irregular attendance.

A child of normal bodily and mental health should have completed the eight grades of school work by the age of fourteen or earlier.

If for no other reason than a financial one a parent should cause his child to attend school regularly as the Attendance and the Child Labor Laws prohibit the employment of children under fourteen years of age.

AMERICANIZATION.

A number of factors growing out of the World War forcibly aroused a nation-wide interest in Americanization. The Surgeon-General of the Army submitted a report showing the illiteracy in the draft camps.

Tests made in the twenty-eight camps showed an average of illiteracy of 24.9 per cent. This represents a percentage of the illiterates between the ages of twenty-one and thirty-one.

These men are presumably recently out of school and illiteracy is less between these ages than between any other adult years.

If this percentage is one to four in our best class (not able to read a newspaper or write a letter home) what would be the number of all our people unable to read and write?

These facts and similar awakened in our people the need of education, of the foreign-born, in the English language and American ideals.

THE TEACHER-SHORTAGE AND SALARY.

General Frank S. Streeter, chairman of the New Hampshire State Board of Education, at a Conference at Durham, December 31, 1919, said:

"There are now 50 of our schools closed because of lack of teachers, and probably 80 or more will be closed within a few weeks. From statistical experience we may expect there will be withdrawals of between 400 and 450 teachers at the end of the present year. Our two Normal Schools will graduate less than 100, which is about the usual number.

"There is no certainty of filling the vacant places with a sufficient number of competent teachers.

"The State Board frankly admits that the situation is serious and is a cause for anxiety, but it is not ready to admit that New Hampshire cannot protect itself and its schools against the threatening danger."

It is an acknowledged fact that the shortage has been caused by the low salaries paid teachers as compared with wages paid stenographers, clerical positions, and women laborers in other industries.

The remedy is a salary increase.

In making a salary schedule, I quote from the report of the United States Commissioner of Education:

I. "The salary of a teacher at the very least, should be a living wage large enough that a teacher may live in comfort, purchase necessary books for professional reading and

culture and to take part in the social life of the community. The salary should be sufficient not only for these present needs but large enough for a saving account."

II. "The maximum salary should be large enough to retain the services of the most efficient teachers and to induce others to enter the profession."

I ask of the citizens their hearty co-operation, as in former years, for carrying into effect completely the new requirements of the School Regulations and Laws.

In order that this may be accomplished a sufficiently large appropriation must be made at the Annual School District Meeting. Otherwise it will devolve upon the State Authorities and the expense charged to the district.

Respectfully submitted,

HENRY S. ROBERTS.

STATISTICAL TABLE.

FOR YEAR ENDING JULY 15, 1919.
